# The Soils Of Bankura District West Bengal For Land Use Planning

**soil classification - usda** - group. any one particular series, family, or great soil group is a group of soils, but series, family, and great soil group, conceived as separate parts in a system of classification, are categories. thus bellefontaine is not a category of soil classification but one particular group of soils in the category "series." **u.s. land use and soil classification - usda ars** - subclass w is made up of soils for which excess water is the dominant hazard or limitation affecting their use. poor soil drainage, wetness, a high water table, and overflow are the factors that affect soils in this subclass.. subclass s. is made up of soils that have soil limitations within the rooting zone, such as shallowness of **provided by the soil science society of america** - 6 soils serve as engineering media for construction of foundations, roadbeds, dams and build-ings, and preserve or destroy artifacts of human endeavors. 7 soils act as a living filter to clean water before it moves into an aquifer. provided by the soil science society of america **soils, soil characteristics and soil management** - soils, soil characteristics and soil management introduction 1 the success of many civilizations has been determined by the quality of their soil resources. furthermore, most civilizations have remained great only as long as they have properly managed the soil. many productive soils have been worn out by depleting the fertility and
