vulnerable and marginalised groups framework (vmgf) (p117635) - a vulnerable and marginalised groups framework is developed when a proposed project design is not yet finalised so that it is impossible to identify all of the adverse impacts, as is required to prepare a vulnerable and marginalised groups plan (vmgp). this situation applies to all the related proposed **inclusion of vulnerable groups - ecropa** - inclusion of vulnerable groups a number of groups within our societies face higher risk of poverty and social exclusion compared to the general population. these vulnerable and marginalised groups include but are not limited to: people with disabilities, migrants and ethnic minorities (including roma), homeless **defining marginalised; dfid's leave no one behind agenda** - example, in some countries girls may not be particularly marginalised overall but certain groups like the rural poor are marginalised gather the evidence needed to weight your marginalised groups to determine which groups are the most vulnerable. evidence should be drawn from existing data that can point to a specific need, rather than **education for the most marginalised and vulnerable** - education for the most marginalised and vulnerable 3 ... 3 2013. the millennium goals report 2013, un. the most vulnerable and marginalised must be targeted one of the most vulnerable and marginalised groups of children and young people are those who grow up ... 4 education for the most marginalised and vulnerable ... **national agriculture and rural inclusive growth project ...** - groups that meet criteria of wb op 4.10 "are present in, or have collective attachment to, the project area 1." the vmgf will guide the preparation of narigp micro-projects that may affect vulnerable and marginalised groups (vmgs) in the proposed project areas. 7.
